Interest Computation

We use the daily balance method to calculate the interest on your account. This method applies a periodic rate to the principal in the account each day.

Balance to Earn Interest

You must maintain a minimum balance of \$5,000 in your account each day to obtain the minimum disclosed annual percentage yield. If your balance is below \$5,000 on any day or days, you will not earn interest on that day or days. Interest begins to accrue on the next business day following the deposit of any checks. All other deposits begin to accrue interest on the day of deposit.

Annual Percentage Yield

The stated annual percentage yield assumes that the interest rate remains unchanged, and the minimum balance on deposit (together with all interest earned) is not withdrawn for the entire year.

Interest Compounding and Crediting

Interest on this account compounds every day. It will be credited to your account at the end of the last business day of the calendar month. If you close your account before interest is credited (prior to the end of the last business day of the calendar month), you will receive the accrued interest. However, your account can only be closed in person or by mail requesting "balance of account."

Variable-Rate Provisions

Variable Rate Basis

Your interest rate and annual percentage yield may change. The interest rate on your account is determined by the Bank, at our discretion.

Rate Change Frequency

We may change the interest rate on your account at any time.

Statements

Each month, we will send you a statement showing all account activity during the previous month. This statement will include any interest earned, the annual percentage yield earned, the rate(s) of interest paid during the statement, and any charges incurred. If you elected the check writing option, paid and canceled checks will be held in safekeeping by the Bank. If you require photocopies of paid checks, they will be provided to you at the charge specified above.

You must examine the statement and notify the Bank within 14 days, in writing, of any discrepancies. If the discrepancy concerns an ATM or other electronic funds transfer transaction (federal recurring payments, payroll deduction, etc.) this notification period is extended to 60 days. If we do not hear from you within these time frames, we will assume the statement is correct.

ACH/EFT & Check Payment Order

On any given business day, when both ACH/EFT debits and/or checks are presented for payment against your account, Apple Bank will pay ACH/EFT debits first, followed by any checks presented. ACH/EFT debits will be paid in the order in which they are received by the Bank and then checks will be processed in the same manner. For example, if an ACH/EFT debit for \$300 is presented for payment and two checks are also presented for payment, the ACH/EFT will be processed first followed by the two checks in the order in which they were received by the Bank.

Additionally, other EFT transactions, such as point-of-sale transactions, will be posted to your account throughout the day as they are received by the Bank.

Charges to Maintain This Account

A maintenance charge of \$10.00 will be imposed every month at the end of the statement cycle if the balance in the account falls below \$5,000 any day of the month.

Other Charges

The charge for new check printing including encoded deposit tickets varies with each order and is dependent upon quantity or style ordered. The same applies to an additional order of encoded deposit tickets.

See attached "other charges" specific to this account.
